

Dear Parent/Guardian:

Your child has been identified by his/her teacher as a student who would benefit greatly from the additional educational opportunity provided through our **Title I Step Up Summer School**. Teachers consider a number of factors before making this recommendation, including Illinois standardized achievement tests, performance on local assessments, classroom performance, and teacher recommendation. Based on this data, your child's performance is below grade level. The extra instruction that your child will receive during the summer school program will help to fill his/her gaps in learning, reinforce important skills, and better prepare them for the next school year.

Our summer program is a five week program. The program operates for 3.5 hours from 8:30 A.M. to 12:00 P.M. Breakfast will be provided at no cost (optional) for all students at 8:10 A.M. in the Community Room.

The summer program will focus on improving areas of deficiency in Mathematics and Reading for your child. We strongly urge you to take advantage of this educational opportunity. Interventions in Reading and Mathematics will greatly increase your child's likelihood for academic success in future years. Please contact me if you need any further information about our summer school program.

Space is limited for our summer school program, so we ask that you complete the application and return to your child's teacher.

You will receive a confirmation of summer school enrollment in May regarding your child's teacher and room assignment.

Respectfully,

Jennifer Toschi
Principal

BETTER SCHOOLS MAKE BETTER COMMUNITIES
